Mr. Scott Albrite
Virginia Association of Towing & Recovery
P. O. Box 147
Manassas, Va. 20180-0147

Dear Mr. Albrite:

The services of professional towing companies are vital to keeping traffic lanes open. Law enforcement needs the quick response of qualified private wrecker operators to assure the rapid removal of highway blockages.

The National Driver Certification Programs set the standards for performance and professionalism in the towing and recovery industry. The continuation of this training program is essential for the future of highway management.

Sincerely,
